**SPECIAL WILDLIFE FUNDS GRANTS PROGRAM
STATE PHEASANT FUND**

SECTION I – GENERAL INFORMATION

What is the State Pheasant Fund?

The State Pheasant Fund is one of three programs funded through the purchase of a State Habitat Stamp. The Habitat Endowment Act, enacted in 1992, provides long-term funding for the State Pheasant Fund, State Furbearer Fund and the Illinois Habitat Fund. The purpose of the Act is to provide a stable and supplemental source of money to support activities and programs undertaken by the Department and other managers of land to preserve, protect, acquire, and manage habitat for future generations. Habitat quality is measured by such parameters as type, native diversity, size, structure, scarcity, and location. Linkage with neighboring habitat, whether existing or potential, is another important consideration. The State Habitat Stamp replaced the existing Pheasant and Furbearer stamps, expanding funding opportunities for enhancement to all types of habitat.

Program Description

The State Pheasant Fund portion involved in the Special Wildlife Funds Grant Program provides for wild pheasant conservation. Not-for-profit organizations develop projects and submit applications to the Department to help fund their projects. The grants are competitive, and are evaluated for their merit.

Who Administers the Grant Program

The Office of Resource Conservation's Division of Wildlife Resources administers four special grant programs that are funded by Illinois sportsmen through the purchase of Habitat Stamps and Migratory Waterfowl Stamps. These are the Illinois Habitat Fund, State Pheasant Fund, State Furbearer Fund and the State Migratory Waterfowl Stamp Fund. These Funds are governed by Administrative Rule set forth in 17 Ill. Adm. Code 3060, a copy of which can be found at www.dnr.state.il.us/legal .

Who is Eligible to Receive a Grant

Eligible recipients are limited to any appropriate not-for-profit organizations that has the expertise, equipment and permission from the landowner (if applicable) to develop and/or manage habitat.

What Kinds of Projects are Eligible for Grants

Eligible projects are limited to those with the purpose of wild pheasant conservation. Examples of past funded projects include native grass and forbs seed, herbicide, and management equipment such as controlled burn tools, seeders, sprayers, native grass drills, land purchases, pheasant research, and education of the public regarding pheasants and pheasant hunting.

What Kinds of Projects are Ineligible for Grants

Projects that are ineligible for grants include the purchase or lease of a vehicle such as a truck as well as All Terrain Vehicles (ATV's).

SECTION II – GRANT APPLICATION AND EVALUATION PROCESS

How and When to Apply for a Grant

To receive a grant from this Special Wildlife Fund an applicant must submit detailed information on his proposal. To aid in presenting this information the Department has provided an application form with general instructions for completion. This form is designed to allow the Department and the State Pheasant Committee to obtain enough information to evaluate the proposed project.

The applicant must provide all information requested on the application. Incomplete applications will be returned to the applicant for completion and resubmittal. Submitting an incomplete application does not extend the application deadline date. Only one (1) original application with supporting documentation and legally authorizing signature needs to be submitted. No electronic or facsimile applications will be accepted.

The application deadline is **5:00 pm August 1st**. Should this date fall on a Saturday, Sunday or holiday, the deadline will be extended to the next business day.

How are Applications Evaluated

All applications received on-time and containing the required information are reviewed and prioritized by the State Pheasant Committee according to the following criteria: completed application, past grant performance of the applicant, eligibility, feasibility, adverse impacts, quality of the proposed habitat, priority for the Department, the applicant's cost-share match, and the applicant's plan for general public access to and/or use of the proposed habitat development or equipment purchase.

The State Pheasant Committee will forward to the Director all applications and the prioritized list of all projects deemed to be consistent with the purposes of the targeted fund. The Director will determine which grants will be awarded after considering the recommendations of the Committee. All applicants will be notified of the Director's decision.

SECTION III – STATE PHEASANT FUND GRANT COMPLIANCE REQUIRMENTS

The Grant Agreement

When a grant has been awarded, the grantee and the Director of the Department, or the Director's designee on behalf of the Department, shall execute a legally binding Grant Agreement. In order for the costs to be eligible for funding, the project must not be initiated and costs shall not be incurred prior to the time the Department approves the application.

The agreement will state the legal authority pursuant to which the agreement is made as well as identifying the project scope, schedule and the work or services to be performed or conducted by the grantee. The agreement will clearly state the amount of the grant and the condition and manner by which the Department shall pay the grant amount.

The agreement will also act as the irrevocable promise by the grantee to pay the local match (if any) of the total project cost. The grantee further promises to expend the grant award and any accrued interest only for the purposes of the project as stated in the application and approved by the Department.

Grant funds for projects approved through the Special Wildlife Funds Grant Program may be made available for expenditure by a grantee for a period no longer than 2 years, except where such grant funds are disbursed in reimbursement of costs previously incurred by the grantee before the grant expired.

Acknowledgment of Funding Source

The grantee shall give proper credit to the State Pheasant Fund and coordinate with the Department on any publication, written document, news article, television and radio release, interview or personal presentation, if initiated by the grantee, which refers to the project.

The grantee shall post a sign, include a logo or affix a decal, if practical and applicable, crediting the State Pheasant Fund. Signs and decals shall be supplied by the Department. The State Pheasant Committee will provide guidance to the grantee for posting of signs and decals on projects awarded under the State Pheasant Fund.

Reporting Requirements

A grantee shall provide a written Final Report to the Department no later than 30 days following the ending date of the agreement. The Final Report shall include all of the following required information:

1. Project information including: grant agreement number; grantee name; address; telephone number; time-frame of the report; and the name and telephone number or e-mail address of grantee representative completing the report.
2. Project objective as described in the application and Grant Agreement.
3. A completed project description.
4. Summary of the project accomplishments involving habitat preserved, protected, acquired, managed or improved (if applicable) through the grant. The summary must include the following: a list of wildlife and/or native plant resources (by species) that benefited from the project and how they benefited; acres planted in cool season grasses, warm season grasses, forbs, legumes, shrubs, trees or other appropriate description, including whether the acres were new or replanted acres; acres sprayed or controlled through the use of herbicides; acres upon which controlled burns were undertaken; acres affected through woody vegetation and/or tree removal; acres planted, disked, mowed, sprayed, or burned, or trees/shrubs planted or removed with equipment purchased through the grant; and the number of cooperators involved in the project.
5. Summary of project accomplishments for the education of the general public (if applicable) through the grant. The summary must include the following: a list of general wildlife and /or native plant resources (by species) that benefited from the project and how they benefited; the specific audience affected; the measurable outcomes achieved; and a list of products resulting from the project.
6. Summary of the project research accomplishments (if applicable) resulting from the grant. The summary must include the following: a list of wildlife and/or native plant resources (by species) that benefited from the research undertaken in the project and how they benefited; and how such research can be implemented to benefit the targeted wildlife and/or native plant resources.
7. Total project expenditures itemized to include the following: name and address of vendor; item description (if applicable) identifying details (i.e.: make, model, serial number) of any equipment or commodities purchased; brand name; seed species/mix; quantity purchased; date item purchased; etc.).
8. Project expenditures paid by funds other than the State Pheasant Fund.
9. Documentation to support summarized report including a complete list of landowner names and full address (note if absentee owner), acreage location and acres affected by the project. Multiple conservation practices on the same acreage does not multiply the acreage

For multiple year projects, the Department may require the grantee to submit an Annual Progress Report for each year during which the project is active. The Annual Progress Report shall include the same information listed for the Final Report as pertains to the current year.

For any grant in excess of \$25,000, the grantee must file quarterly (every 3 months) reports describing the progress of the program, project, or use and the expenditure of the related grant funds. (SB 51, 07/01/10)

Failure to provide the Final Report or Annual Progress Report as required may render the grantee ineligible to receive payments under the current award or make them ineligible for future awards. Deadlines for reports may be extended for just cause when requests are submitted in writing at least 2 weeks prior to the deadline. **Note: Grantor agencies may withhold or suspend the distribution of grant funds for failure to file required reports. (SB 51, 07/01/10)**

Financial Management

The grantee shall keep adequate records relating to its administration of a project, particularly relating to all incurred costs. All assets acquired through Special Wildlife Funds shall be accounted for. These records shall be available for audit by appropriate personnel of the Department and the State Auditor General. All records shall be retained in accordance with State laws.

Any funds (including any interest earned) not expended or legally obligated at the completion of the project or at the end of the agreement, whichever is earlier, shall be returned to the Department within 45 days to be deposited in the State Pheasant Fund. If the purchase is initiated and documented by a written purchase order or invoice prior to the end of the term of the agreement and payment is made within 60 days, the expense is allowable.

Interest earned on funds received as an advance payment shall become part of the project principal and may only be used for eligible activities.

Any expenditure that does not comply with the grant agreement shall be disallowed and shall be returned to the Department for deposit into the State Pheasant Fund.

Whenever a grantee violates this Part, it shall be ineligible for further assistance for a period of 2 years.

Equipment

Equipment that specifically establishes habitat, such as native grass drills, tree planters, seeders, sprayers, tillers, disks, mowers and tractors are eligible to be purchased with Special Wildlife Funds. Vehicles such as trucks, all-terrain vehicles (ATVs), etc., are not eligible for Special Wildlife Funds.

Grantees will be responsible for the maintenance of any equipment purchased through the Special Wildlife Funds Grant Program. Equipment is to be kept safe and secure by the grantee. Equipment is to be available for use by the general public for habitat development and management.

The grantee may only charge a rental fee for the use of the equipment. Rental fees shall not exceed \$3/acre for habitat development equipment such as native grass drills, tree planters, seeders, sprayers, tillers, disks, mowers, tractors or other planting equipment purchased with Special Wildlife Funds. Rental fees shall be disclosed with the application for funding assistance in purchasing the equipment. All monies collected as rental fees shall be used solely to maintain the equipment for which they are charged. The rental fees charged and received by the grantee shall also be disclosed on the reporting of the use of that equipment. No other fees beyond a rental fee may be charged by the grantee for use of the equipment.

The grantee shall submit an Equipment Use Report on the use of all equipment purchased with Special Wildlife Funds. The Equipment Use Report shall include all of the following required information:

1. Details on the grant recipient including: name and address of the grantee; number of the grant agreement under which the equipment was purchased; name and telephone number or e-mail address of the person completing the report; and the time period covered by the Equipment Use Report.
2. Details on the piece of equipment including: equipment type, model number and serial number; storage location address; acre or odometer meter reading at the beginning and ending of the reporting period;

contact person name and telephone number; rental rate charged and total fees collected for the use of the equipment; description of any equipment maintenance and total expenditures for maintenance, supported by paid invoices.

3. Detailed information on the use of the equipment, including: date equipment was used; location of equipment use, including county, township, range and section; landowner name and full address (note if absentee owner).
4. Description of how equipment was used including: management practice completed (planting, disking, mowing, herbicide application, prescribed burn); materials planted, if applicable, including the quantity and species planted and details of seed mix contents; acres established, enhanced, or otherwise affected and how affected (note when multiple practices are on the same acres).

The Equipment Use Report shall be submitted by December 31 during each of the first 5 years following the project award. The Equipment Use Report shall suffice as the Annual Progress Report if the equipment purchase was the only aspect of the project.

Equipment purchased shall become the property and the responsibility of the grantee unless specified otherwise in the agreement.

Whenever it has been determined by the grantee and the Department that equipment acquired with Special Wildlife Funds assistance is no longer needed for the project purpose, or that the grantee has other good cause, the equipment, with the approval of the Department, may be disposed of in accordance with one of the following methods:

1. Equipment may be transferred at no charge at any time with the approval of the Department to another governmental agency or not-for-profit organization to use in accordance with the original project purpose.
2. Equipment held more than 5 years may be retained, sold or otherwise disposed of with no further obligation to the Department.
3. When equipment is held less than 5 years and not transferred as described above, the grantee shall forfeit its interest in the equipment and shall deliver the equipment to the Department.

Habitat Development

On habitat development projects where other governmental or private funding programs are involved, the grantee is required to provide the following detailed information:

1. cooperator names and addresses and locations of the habitat affected (Township, Range, Section and County);
2. number of acres enhanced by the grant;
3. type of eligible conservation practice completed;
4. the funding amount of other cost sharing provided and the name of the cost share provider;
5. a copy of any farm program contract or other pertinent document identifying the amount of cost-share being provided; and
6. length of time committed to maintain the developed habitat area.

The grantee cannot charge fees for service or require membership to participate in the benefits of a project funded through Special Wildlife Fund grants except as specifically authorized for equipment rental.

Habitat development projects are to identify the species to be planted.

Inspection and Auditing of Projects

The Department shall be authorized to enter and cross properties affected by the Special Wildlife Funds grant program to inspect progress and monitor grantee compliance, in accordance with the authorities granted it through the Civil Administrative Code of Illinois [20 ILCS 805/805-530]. **Public Act 96-0795 aka SB 51 (07/01/10) also**

states that any grantees receiving grant funds are required to permit the grantor agency, the Auditor General, or the Attorney General to inspect and audit any books, records, or papers related to the program, project, or use for which grant funds were provided.

The Department shall develop a standardized inspection report for use by Department personnel when inspecting any project site. The inspection report shall become part of the public record.

SECTION IV - APPLICATION INSTRUCTIONS

This Special Wildlife Funds Grant Application Form can be used to apply for grants from the State Pheasant Fund. All fields shown as a required must be completed and/or attached for the application to be considered complete. Please type or legibly print application in black ink.

I Applicant Information

- List the name and other required information for the organization that will be receiving the grant. The Applicant Representative is the person completing the application and authorized to sign for the applicant. *A signature is required.*
- Other Contact Person is for the name and other requested information of the person to be contacted regarding any questions about the application if the contact person is different from the Applicant Representative.
- List the chief officers responsible for the applicant organization.

II Project Description

- Check the classification that most describes your project and provide a project title.
- Describe and justify the project concisely but completely. The project objectives should be clearly stated and must be within the scope of the grant program to be considered. You must indicate the number of acres to be improved and show a plan for implementation. With exception to equipment purchases, you must include a map of project area, indicate the amount of habitat to be established or managed, and if cooperators are involved, a plat map and copy of the farm program contract for each farm. Provide the target audience for education projects, with objectives, methodology, measurable outcomes and products resulting from the project that can be used after completion.

III Budget Summary (Please round all figures.)

- Provide a summary of the **Detailed Budget** (page 4) according to budget category. For each category, identify which expenditure will come from grant funds and which will be provided by matching funds. The Project Total must match the Total Cost of Project on the Detailed Budget.
- List the source and amount of any matching funds that will be contributed to the project.
- In-kind (non-cash) contributions will not be allowed as part of the applicant's matching funds.

IV Habitat Improvement

- Indicate the appropriate category that best describes the project and identify the county(s) where the project will be undertaken.
- New Habitat Establishment - Identify the county(s), type of habitat, list the species, and number of acres to be planted. (*Location maps are required*)
- Habitat Modification - Describe the acreage to be modified including the existing habitat, number of acres and the modifications to occur. Explain why the modification is necessary. (*Location maps are required*)
- Methods of Establishment for New or Modified Habitat - Describe how the acreage is to be established or modified, including the equipment and technique to be used. Of the total acres, identify the number of projected

acres as well as the number of acres where landowners have committed to the new habitat or modifications.

- Federal/State Assistance - Identify if any of the acreage to be established or modified is enrolled in a federal or state conservation program, and if the landowners are receiving any incentive cash payments. If any are, attach the requested detailed information and label it "Landowner Information."
- Habitat Maintenance - Indicate the party responsible for documenting maintenance and the expected annual maintenance costs.
- Public Access to Habitat Improvement Project – Identify the type of public access. Describe the plan for public access and use of the project area (or lack thereof).

V Special Equipment Purchase

- Describe the requested equipment and explain why this model was selected. (*Price quotes are required. If the equipment exceeds \$5,000 in total cost, two price quotes are required.*)
- Public Accessibility to the Equipment - Equipment purchased through Special Wildlife Funds grant programs are intended to be available for loan to perform habitat development and management. Identify the rental rate that will be charged on this piece of equipment (if any). Rental charges are to be minimal (no more than \$3/acre) to encourage its use by local landowners. Note any other fees that will be assessed for the use of the equipment.
- Equipment Maintenance - The DNR requires a log of annual usage and rental charges on all equipment purchased. Note the address and physical conditions of the equipment storage location. Identify how landowners will be trained on the use of the equipment.

VI Education Project

- Intended Audience - Describe the intended audience the project is supposed to reach. Be specific.
- Educational Objectives – List the objectives to be attained through the project. If applicable, indicate how the objectives will be measured, documented and any follow-up.
- End Products – List what, if any, products will be produced through implementation of the project.

VII Research Project

- Principal Investigator – Indicate who will be acting as the Principal Investigator and other required information for the organization that will be receiving the grant.
- Research Objectives – List the objectives to be attained through the project. If applicable, indicate how the objectives will be measured, documented and any follow-up.
- Designs and Methods – Provide concise descriptions of the experimental design and methods that will be used to address each research objective.
- End Results – List what is expected as a result of this research and its application to wildlife management practices/policies in Illinois.
- Special Needs – Indicate any special equipment that will be purchased from this grant specifically for this research, including a cost estimate. Describe any cooperation needed from the Department.

VIII Detailed Budget (*Required for all applications.*)

- List all projected expenditures associated with the Project, broken down into the categories of personnel, travel, equipment, materials/supplies, contractual services or other. List the description, unit cost, quantity and total. The total for each budget category is to be reflected under section III Funding/Budget Summary on page 1 of the application.
- **Provide a program of proposed expenditures for the grant funds.**

IX Attachments

- Check all applicable attachments. (*List all legally required permits and surveys.*)

- If you submit County plat maps, aerial photos, soil survey maps, USGS topographic maps, or sketched Project Site Maps, please clearly mark the boundaries of the project. Maps and/or sketches should have a north arrow and key landmarks identified. Describe “Other” attachment.
- A Habitat Management Plan prepared by an Illinois Department of Natural Resources biologist, NRCS/FSA (*formerly SCS, ASCS*) employee or other professionally recognized biologist may also be attached if helpful.
- Price quotes for equipment purchases should indicate all accessories of the equipment.
- Only one copy of the application and associated attachments are required unless the attachments are not readily photocopied (*color photographs, color maps or drawings, over-sized pages, etc.*) In such cases, ten copies of the attachment(s) must be provided.
- Applications for seed purchases must indicate the variety of seed. For seed mixes indicate all seed varieties in mix.

APPLICATION DEADLINE

Project applications are to be received in this office no later than **5:00 PM on August 1st**.

Mail applications to: Illinois Department of Natural Resources
Office of Resource Conservation- Special Funds Unit
One Natural Resources Way
Springfield, IL 62702-1271

Return all pages of the application form. Applications submitted electronically or by facsimile will not be accepted. Applications that are not signed will be returned.

QUESTIONS

Any questions regarding the Special Wildlife Funds Grant Program or completing the Special Wildlife Funds Grant Application Form should be directed to the Office of Resource Conservation - Special Funds at (217) 782-2602, e-mail address: DNR.SPECIALFUNDS@illinois.gov.

Describe the acreage to be modified.		
<u>Existing habitat</u> <i>(list species)</i>	<u>Modifications to occur</u>	<u># of acres</u>
		Total Acres _____
<u>Why is modification required?</u>		

Methods of Establishment for New or Modified Habitat

By what method will the habitat be established or modified? *(Describe the equipment, management technique, etc.)*

Of the total acres, this includes: _____ projected acres and _____ acres already committed = _____ Total Acres

Federal/State Assistance

Is property enrolled in a federal/state program? (*) Yes No

Does the landowner(s) receive a cost share and/or incentive payments? (*) Yes No

If yes, attach Landowner Information including landowner name, full address, federal/state program, plat map of the enrolled acres and payment amounts.

Habitat Maintenance

Who will supervise and document maintenance of the new or modified habitat?

Name/entity: _____

Contact Person: _____ e-mail address: _____

VI EDUCATION PROJECT

Describe the intended audience:

Area of state: Statewide: Yes No If No, which counties (*):

List the educational objectives (*please be concise*):

What end-products will be produced/distributed? (*For example, television segments, VHS videos, brochures, displays, radio programs, etc.*)

Contact Person: Name _____

Daytime Telephone: (____) _____ - _____ email address: _____

VII RESEARCH PROJECT

Principal Investigator Name:

List research objectives (*please be concise*):

Provide a concise description of the experimental design and methods that will be used to address each research objective:

List expected project outputs and their application to wildlife management practices/policies in Illinois:

List special equipment that will be purchased with this grant (*include cost estimate*) and detail any special cooperation needed from the Department of Natural Resources in terms of manpower, equipment, and/or facilities. Indicate final disposition of equipment.
